Re: Flat Panel Display Reference Monitoring

Dear Dick,

This is an update on WBU-ISOG's request to the WBU-TC to investigate item 1.6 of the List of Joint Projects:

1.6 Assessment of Professional Grade Studio Monitors

- Traditional CRT-based reference monitors are becoming obsolete. Information is to be shared on investigations and assessments of Professional Grade Studio Monitors using new display technologies.

Upon further discussion at our meeting in November 2008, please note that the work on flat panel monitor assessment is being done elsewhere in the industry and the WBU-TC should not duplicate this work but can gather information on the work being done by IEEE, SMPTE, ITU-R, broadcast Unions and others and provide it to ISOG. Additional such information will be shared among the WBU-TC for distribution to their members.

We will aim to provide you with a report for the WBU-ISOG Forum in May, 2009.

Sincerely,

Riyadh Najm,
Chair, WBU-TC
