Automated SNG Hardware
objectives:

Automated SNG Hardware objectives:

- Globally ubiquitous

Automated SNG Hardware objectives:

- Globally ubiquitous
- Efficient, “idiot-proof” automation

Automated SNG Hardware objectives:

- Globally ubiquitous
- Efficient, “idiot-proof” automation
- Economical, user-managed pricing

Automated SNG Hardware objectives:

- Globally ubiquitous
- Efficient, “idiot-proof” automation
- Economical, user-managed pricing

- Wide bandwidth options, user-selectable

Automated SNG Hardware objectives:

- Globally ubiquitous
- Efficient, “idiot-proof” automation
- Economical, user-managed pricing

- Wide bandwidth options, user-selectable
- IP-based, SD/HD video, FTP, Web-enabled

Automated SNG Hardware objectives:

- Globally ubiquitous
- Efficient, “idiot-proof” automation
- Economical, user-managed pricing

- Wide bandwidth options, user-selectable
- IP-based, SD/HD video, FTP, Web-enabled
- Speedy deployment and access

Automated SNG Hardware objectives:

- G
- E
- E

- W
- I
- S

So, are these solutions GEE WIS compliant?

- David Meynell, Managing Director, SISlink
- James Casabella, Director, Advanced Technology, ABC
- Jim Gilbert, CEO, On-Call Communications
- Larry Taylor, Director, Strategic Business Dev., Viasat
